## SELECT GRADE KILN DRIED HARDWOOD

## WARRANTY

### GUARANTEE

Subject to terms and conditions set forth herein, doors supplied by Damian Collection are guaranteed for 12 months from date of manufacture by the above to be of good material and workmanship, free from defects which render them unserviceable or unfit for the use for which they were manufactured. Nothing herein contained shall exclude the rights which any purchaser may have under the Trade Practices Act or similar State and Territory Laws.

### TERMS AND CONDITIONS

Natural variations in the colour, texture or grain pattern of the wood are not to be considered defects. Doors must be accorded reasonable treatment by the purchaser and should be stored or hung in dry buildings & not in damp, moist or freshly plastered areas. The utility or structural strength must not be impaired in the fitting of the door, the application of hardware or cutting and altering the door in any way. Immediately after fitting BUT prior to hanging, the entire door including the top, bottom and side edges must be treated with paint or varnish ACCORDING TO THE MANUFACTURERS INSTRUCTIONS. The manufacturer will not assume responsibility for doors which become defective because of failure to follow these recommendations or hazards of transportation or storage after door leaves control of the manufacturer. Please note that all Damian Collection doors MUST be sealed on all six sides according to the Instruction Sheet that accompanies each door. Doors must be inspected upon arrival for visible defect and the supplier notified in writing of any claim within seven days. The manufacturer agrees to repair or replace, at its option, unfinished and in the form originally supplied and without charge, any door found to be defective within the meaning of the guarantee. The manufacturer will not be held responsible for additional charges of hanging, painting or other charges arising from the replacement of doors.

### INTERPRETATION OF WARP

Warp shall be interpreted so meaning the cupping, bowing or twisting of doors. It refers to the distortion within the door itself and not to its relationship to the jambs or frame in which it is hung. Warp exceeding 5mm shall be considered a defect.

### Exclusions

The guarantee against warp does not apply to the following:

- Doors that are improperly hung or do not swing freely.
- External doors which have been painted or stained DARK colours.
- Doors not maintained with adequate paint or stain according to the manufacturers recommendations to prevent deterioration of the doors.

Experience has demonstrated that when warp occurs after doors have been delivered to storage or building site it is usually due to improper storage or adverse moisture conditions after hanging and not to faulty manufacture. The manufacturer will accept no responsibility for doors when moisture content of the timber is outside the manufacturer's specification.

Obviously the manufacturer cannot assume responsibility for conditions wholly beyond his control. He should however, be consulted promptly if excessive warping occurs so as to be of assistance in overcoming the difficulty.

### Advisory Note

Door manufacturers are not responsible for transit charge or damage incurred by transport companies

**DOOR SPECIFICATIONS AND GLASS DESIGNS MAY ALTER AT ANY TIME WITHOUT NOTICE. COLOUR VARIATION BETWEEN BROCHURE AND ACTUAL GLASS MAY OCCUR.**

There is no substitute for the random events of forest life, which makes each tree as unique as a snowflake. And since every Damian Collection door has a tree for an ancestor instead of a test tube, there is no doubt about their pedigree.
